

BREVI MISSION MAKERSPACE

Join Brevig's newest afterschool club & become a Maker. What's a Maker? Makers use everyday tools & materials to build new & interesting projects. They work with computers, hand tools, & craft supplies. They create LEGO robots, computer programs, light up clothing, & crafts that do cool things. If you can imagine it, you can Make it! Still not sure? Stop by afterschool & see what it's all about for yourself!

**What will you
"Make"?**

**Write your own
computer
program!**

**Make clothing that
lights up!**

**Build your own
robot!**

Learn Minecraft!
